Premium textiles for home and fashion.

be.home

Home textiles are decorative and functional textiles used in the home such as bedding, towels, table cloth and curtains made from cotton or synthetic fabrics.

be.apparel

Apparel textiles are made of cotton, polyester or blends of these materials and are used in the manufacture of clothing and accessories. They are comfortable, durable and easy to care for.

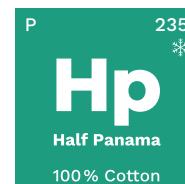

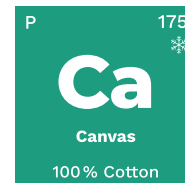

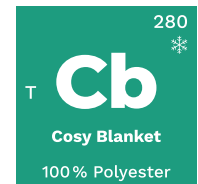

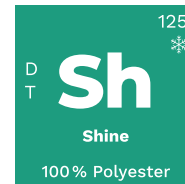

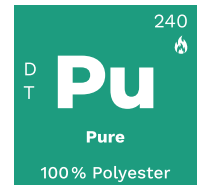

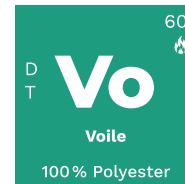

be.sport

Upgrade your workout wardrobe with our high-performance sports textiles. Moisture-wicking and breathable for ultimate comfort.

be.home

Home textiles provide comfort and style to any home. Soft furnishings include curtains, blankets, sheets, and towels. Made from cotton or polyester. Transform any room into a cozy and inviting space with high-quality home textiles.

www.bergertextiles.com

Applications:
Interior design,
Backdrop, Curtains

Width: 160, 320 cm

Art.No. 03779-0026-BE

Voile is a lightweight and semi-transparent textile great for creating curtains or backdrops. Its delicate appearance adds sophistication and allows soft light to filter through, making any room bright and airy.

Applications:
Deco, Cushions,
Bed linen, Curtains,
Dresses, Skirts,
Blouses

Width: 152 cm

Art.No. 06205-1100 / 06205-1101 (with pigment pre-treatment)

Berger Textiles satin-weave construction enhances cotton's appearance, creating a shiny, structured fabric with beautiful drape. The atlas weave showcases the tightly packed warp threads, made with the finest yarns for a soft yet strong material.

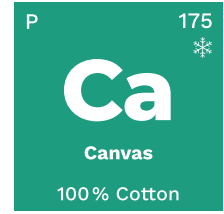

Applications:

Table Clothes,
Display Frame
System

Shine gives every brand a sparkle. This light and opaque fabric is particularly suitable for decoration use.

Applications:

Deco, Cushions,
Bed linen, Curtains,
Fashion, Table clothes,
Accessories, Bags

Canvas is a strong, extremely durable cotton fabric in plain weave, which is one of the oldest and simplest basic weaves.

Ut**Universal Sports
Tricot**

100% Polyester

Applications:

Sport Shirts,
Leggings

Width: 160 cm

Art.No. 06109-2200

Mesh Sport is a knitted fabric made of mesh and piqué construction, featuring a honeycomb surface for optimal air transport during physical activity. It's made of synthetic material for quick drying and is highly stretchy to adapt to body movements.

Width: 152 cm

Art.No. 06110-2200

The name should be not mistaken with the tricot construction from warp knitting technology! Universal Sports Tricot is produced in the fine and tight interlock construction. The synthetic material barely absorbs moisture and dries quickly.

A grayscale, close-up photograph of a leaf's vein structure. The image shows a network of veins, with a prominent central vein and several branching veins extending across the frame. The texture is intricate and organic, with varying shades of gray highlighting the different parts of the vascular system.
