

240
T **Pu**
Pure
100 % Polyester

PURE

Art.No. 04442-0003

Pure has the same properties as a canvas, but is not as resistant and with its unobtrusive structure is more suitable for finer image motifs.

Facts

Composition	100 % Polyester
Construction	Woven
Width brutto	160, 320 cm
Weight	240 g/m ²
Thickness	0.40 mm
Shrinkage	Length ≤ 2% Width ≤ 2%
Transmission	45%
Calender	195 °C, 42 Seconds
Abrasion resistance	70.000 cycles (Martindale, EN ISO 12947-2)

Applications

Deck Chair, Hammock, Interior, Curtains, Bean Bags, Stand Construction

Print technology

***Important: Always perform print test!** Many parameters influence the print result: printer, type of ink, textile, room climate, intended use and much more. An ideal print result can only be achieved in combination. That is why we at **berger**textiles recommend only the printing processes for a product that will achieve the best results. The recommendations are the result of intensive print tests and must meet the highest demands in terms of print quality. Often it is also possible to print the textiles with other printing processes. In these cases, the individual requirements and technical possibilities are very important. All technical information was determined according to the current state of measurement technology and reflects the values of the test sample. Despite the highest quality standards, there may be deviations in production technology - all information is not legally binding and without guarantee.
